THE BRAND

WOVEN VINYL FLOORING

BOLON

**Wayflor
USA**

Woven vinyl, increasingly favored by architects and designers, is used more in both indoor and outdoor design. While it resembles the appearance of tightly woven natural sisal or seagrass, it offers additional benefits such as waterproofing, slip resistance, and exceptional durability. Its versatility makes it suitable for a wide range of settings, from residential homes to commercial spaces, including offices, bedrooms, and even wet rooms.

FABRIC

UPHOLSTERY & CURTAINS

Fabric is a versatile material used in various applications, including upholstery and curtain. Fabric is often used to cover chairs, sofas, or beds, providing comfort and aesthetics to living spaces. Meanwhile, curtain is used to create beauty and privacy within a space, while also allowing for light control and creating a sense of comfort for users.

LEATHER ART

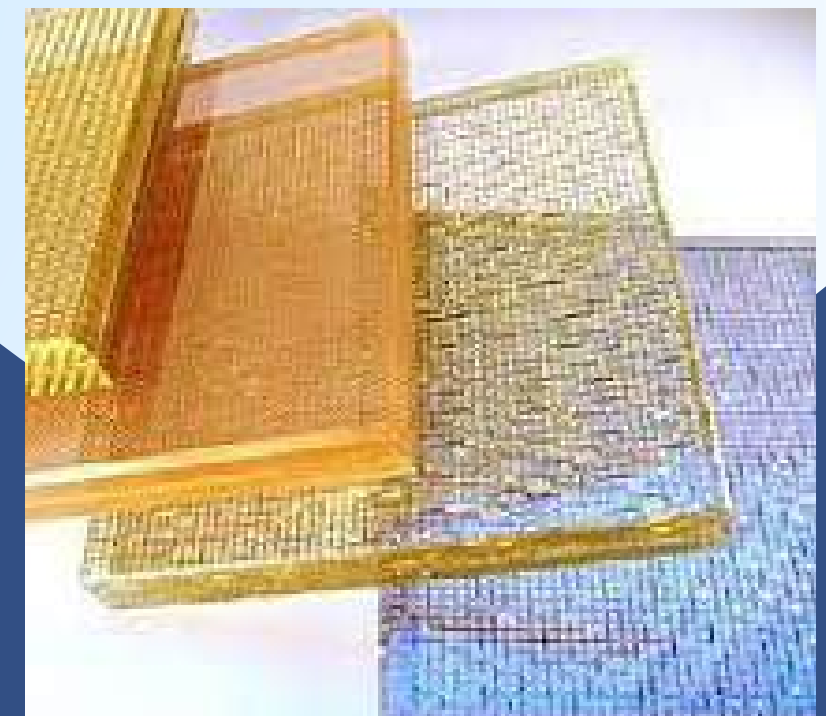

Leather Art is a versatile choice for your collection of leather-upholstered furniture. Leather Art products combine the distinct craftsmanship of high expertise with contemporary sculpting techniques, resulting in highly creative designs with soft, vivid, and distinctive aesthetic effects.

LAMINATED GLASS

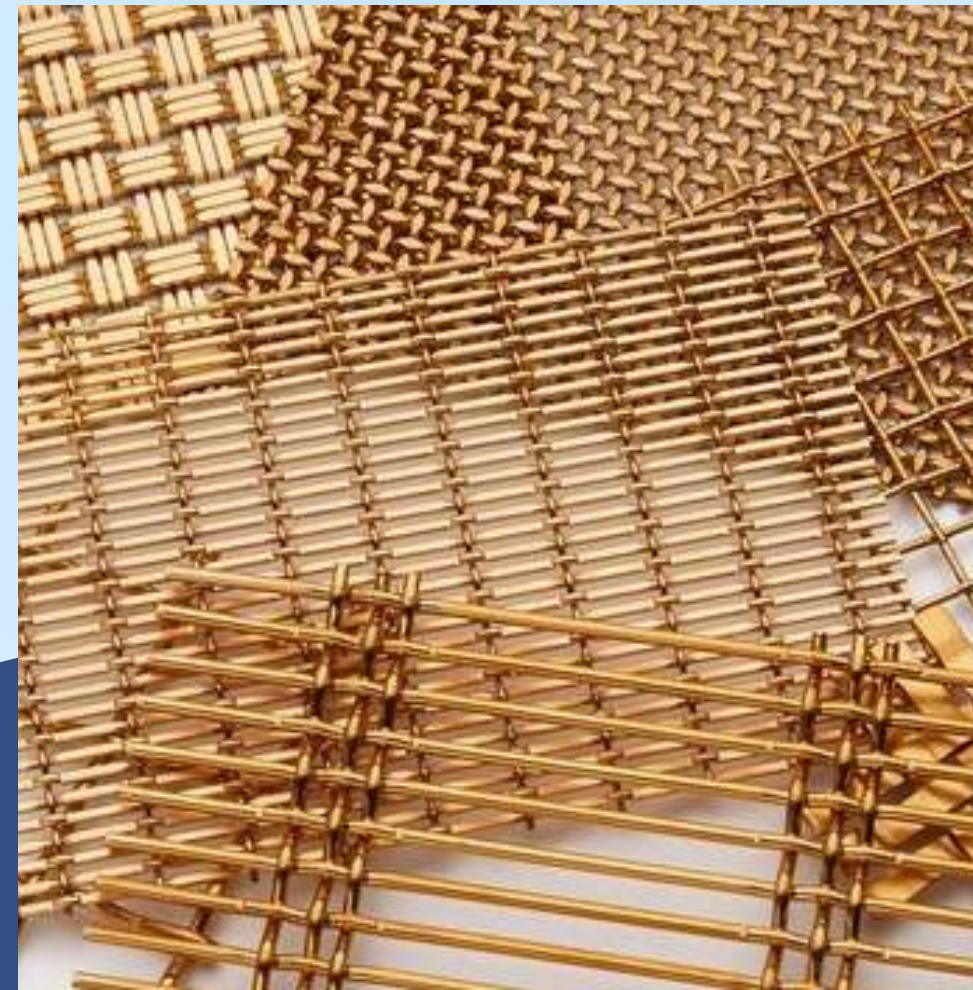

Laminated glass is a glass product composed of two or more layers of glass bonded together by one or more interlayers. Among the interlayer materials used are fabric, wood, LED lights, steel, and other things.

METAL MESH

Decorative wire mesh is a special type of wire mesh made to look good for decorating inside or outside buildings. It's attractive and stylish, used in modern homes, and big construction projects to make them look nice.

BARRIER MATTING

Barrier matting, or entrance matting, comprises fixed mats made from aluminum or plastic with inserts of carpet, nylon brushes, or rubber/PVC scrapers. Inserts are chosen based on the environment, foot traffic, and type of traffic to scrape dirt or absorb moisture.

OUTDOOR WPC

Outdoor WPC is the perfect solution for outdoor spaces, offering versatile applications from wall and ceiling cladding to gates, fences, and outdoor flooring. Combining the natural beauty of wood with durability against sun, rain, termites, and mold, this lightweight material resists warping and adds a unique, creative touch to any project.

DECORATIVE LIGHTING

Not just a source of illumination, Stella Global's decorative lighting serves as an artistic highlight, reflecting your unique lifestyle and personality. With sophisticated designs ranging from classic to minimalist styles, each piece brings harmony and elegance to any space.
